

Design on Stage

A versatile collection that reinterprets traditional elements, like the bolster, associating them with a sleek, refined structure that fits smoothly into the contemporary language.

Una collezione trasversale che riprende elementi della tradizione, come il “bolster” (cuscino a rullo), associandoli a una struttura di sostegno fine e rigorosa che si inserisce nel linguaggio contemporaneo.

“B&B Atoll is a versatile collection that reinterprets traditional elements, like the bolster, associating them with a sleek, refined structure that fits smoothly into the contemporary language. It is versatile because it can be used in a wide range of settings, from the most formal, to informal situations, thanks to the possibility of creating an L-shaped configuration with the daybed as end element.”
Antonio Citterio

Named after a coral formation, the new modular seating system by Antonio Citterio, is a refined expression of a balanced aesthetic form and a decisive contemporary style that is also extremely elegant. The system is built on three basic platforms – 190 cm and 240 cm, both with 90 cm depth, and 130 cm with 140 cm depth – that are complemented by armrest and backrest elements to form various types of seats: sofas, dormeuses, terminal corner elements, single or modular elements with chaise longue and ottoman. The frames have light, slender lines and are applied on high die-cast supports with metal profile emphasising the line between the structure and upholstery. Two finishes are available, painted pewter and black chrome. The pieces are given even more character by a supporting element to be placed wherever desired, a bolster in two sizes – 65 and 90 cm – attached by leather straps to a die-cast structure. This accessory can be inserted between the seat cushion and the base structure to provide an additional support or become an armrest or backrest at will. B&B Atoll is a dynamic project with a constantly fresh ability to adapt to different compositions and create different seating types, from informal relaxed versions to more formal, also made possible by the use of complementary back cushions.

“B&B Atoll è una collezione trasversale che riprende elementi della tradizione, come il “bolster” (cuscino a rullo), associandoli a una struttura di sostegno fine e rigorosa che si inserisce nel linguaggio contemporaneo. È trasversale perché può essere utilizzato in un numero elevato di situazioni, da quelle più formali, a quelle informali, grazie alla possibilità di avere una composizione a L con il daybed come elemento terminale.”
Antonio Citterio

B&B Atoll, il nuovo sistema di sedute componibili di Antonio Citterio, il cui nome rimanda alle omonime formazioni coralline, è l'espressione ricercata di una forma estetica equilibrata e di uno stile contemporaneo deciso, allo stesso tempo estremamente elegante. Punto di partenza del sistema sono tre piattaforme di base – cm 190 e 240 con profondità cm 90, cm 130 con profondità cm 140 – che si completano con elementi bracciolo e schienale a formare tipologie diverse: divani a pozzetto, dormeuse, terminali angolari, elementi singoli oppure componibili con elementi chaise longue e pouf. Le strutture presentano linee leggere e sottili e sono applicate su sostegni alti in pressofusione con profili metallici a sottolineare la linea tra le strutture stesse e l'imbottitura; due le finiture previste, verniciato peltro e cromato nero. A dare ulteriore carattere alla proposta, un elemento di appoggio da orchestrare a piacere: un cuscino a rullo in due dimensioni – cm 65 e 90 – vincolato con cinghie in pelle a una struttura in pressofusione. Un accessorio da inserire liberamente tra il cuscino sedile e la struttura di base per offrire un ulteriore sostegno e diventare a scelta un elemento bracciolo o schienale. B&B Atoll si rivela così essere un progetto dinamico, con un grado di adattamento compositivo sempre nuovo e con la possibilità di creare molteplici tipologie di sedute, da quelle relax più informali a quelle più formali, grazie anche all'utilizzo di cuscini schienale complementari.

The Jens series of chairs now features a new version made of wooden frame and black or natural cellulose rope interlacing seat. This refined chair, which, like the others in its family, offers a contemporary take on the classic Chinese chair, features a turned and curved frame in natural wenge or in oak in the finishes brushed light, grey, brushed black, or smoked stained.

La serie di sedie Jens introduce una nuova versione con struttura in legno e seduta con intreccio in corda di cellulosa naturale o nera. Una sedia preziosa che, come le altre che compongono la serie, interpreta in chiave contemporanea il disegno classico delle sedie cinesi ed enfatizza la lavorazione del legno tornito e curvato, da scegliere tra wengè naturale o rovere nelle varianti chiaro spazzolato, grigio, nero spazzolato o tinto fumigato.

It's as if it were
a surface, a Möbius
strip. Eda-Mame is
strangely full of curves,
it welcomes you and,
if you want, it lets you
drink an aperitif,
almost as if it were an
upholstered table.

È come se fosse una superficie, un modello di “Möbius”.
Eda-Mame è stranamente piena di curve, ti accoglie e, se vuoi, ti permette
anche di bere un aperitivo, quasi fosse un tavolo imbottito.

Shaped by an organic development inspired by the form of a soy bean, a typical ingredient in Oriental cuisine, Eda-Mame is a furnishing element with a strong impact created by a sculptural design that can give great incisiveness to a space. A single object that is a fusion of three types of seating – high-back chair, easy chair and pouf. Its threefold nature lends Eda-Mame extreme versatility in both residential and public settings, and can also highlight areas for co-working, passage and short stays, like hotel lobbies. Made of moulded foam, Eda-Mame is upholstered in a stretch fabric with a light stitching. The support base is made of crosspieces with rounded steel feet connected to each other by a bar, all in pewter painted finish.

Caratterizzato da uno sviluppo organico che si ispira alla forma del fagiolo di soia tipico della cucina orientale, Eda-Mame è un elemento di arredo di forte impatto grazie al disegno scultoreo in grado di caratterizzare lo spazio con grande incisività. Una proposta che fonde in un solo oggetto tre tipologie di seduta: con schienale alto, relax e pouf. Ed è proprio grazie alla sua natura triplice che Eda-Mame si rivela estremamente versatile nell’uso sia in ambito residenziale sia pubblico, anche per sottolineare aree co-working, di passaggio e sosta come le hall degli alberghi. Schiumato in stampo, Eda-Mame è rivestito con un tessuto elasticizzato che presenta una leggera impuntura. La base di sostegno è realizzata da traverse con piedini in tondino d’acciaio, il tutto con finitura verniciata peltro.

This bookcase system started as a stacking exercise of an assembly of rods of the same diameter. Its discipline lies in the structural rules used to build from one form to the next.

Questo sistema di libreria è nato come esercizio di assemblaggio di tondini dello stesso diametro. La sua disciplina deriva dalle regole strutturali utilizzate per passare da una forma a quella successiva.

The system is available in 14 heights, ranging from 220 to 324 cm and taking in all measurements in-between, while the shelves are in two lengths, 75 and 90 cm, both 30 cm deep. There are two finishes provided for the vertical elements and shelves for single-colour solutions, chalk white and black, both matt.

Il sistema viene proposto in 14 altezze, che variano da cm 220 a 324 e risolvono tutte le quote intermedie, mentre i ripiani sono previsti in due lunghezze, cm 75 e 90 con profondità cm 30. Due le finiture per montanti e ripiani per soluzioni monocolore: bianco gesso e nero, entrambi opachi.

Jack is the result of the first collaboration between B&B Italia and Michael Anastassiades. Known for his skills in working with light, the Cypriot designer has designed a modular bookcase system with a striking degree of technological perfection. In its search for the creation of an innovative language, this design challenge revisits and modernises a design classic, the 1950's room centre bookcase, transforming it into a clean, essential yet architectural structure. The genius of the piece lies in concealing the engineered supports, including those holding up the laminated shelves, inside the vertical elements with a rounded section made of extruded aluminium and integrated by an exclusive, totally-invisible, floor-ceiling telescopic adjustment system.

Jack è il risultato della prima collaborazione tra B&B Italia e Michael Anastassiades. Noto per essere un virtuoso della luce, il designer cipriota ha progettato un sistema di libreria modulare che colpisce per il grado di perfezione tecnologica. Una sfida progettuale che, nel cercare un linguaggio innovativo, recupera e modernizza un classico del design: la libreria da centro stanza degli anni Cinquanta, trasformata in un complemento con una struttura essenziale, ma architettonica. L'intuizione geniale risiede nell'aver nascosto gli elementi ingegneristici di sostegno, ivi compresi quelli che reggono i piani di appoggio in laminato, all'interno di montanti verticali a sezione tonda realizzati in estruso d'alluminio e uniti da un sistema esclusivo di regolazione telescopica terra-soffitto, completamente invisibile.

The structure, serving as both pedestal and support, recalls a group of upturned pyramids, a geodetic frame as if it was a magical object, entrapping and amplifying cosmic energy.

Il reticolato allo stesso tempo piedistallo e supporto del piano, ricorda un gruppo di piramidi rovesciate, una struttura geodetica quasi, un oggetto magico, catalizzatore di energie positive.

The Alanda '18 low table, an iconic piece that ushered in the 1980s, is now revisited in homage to Paolo Piva, the great architect and designer who recently passed away. A highly successful classic and sought-after vintage furnishing complements, Alanda '18 is one of the most typical design objects of a period with a wealth of strong, daring stylistic signs, often in a dialogue with architecture, reproducing its most attractive, characteristic elements in miniature. The Alanda '18's structure, serving as both pedestal and support, recalls a group of upturned pyramids, a geodetic frame that has always characterized it as if it was a magical object, entrapping and amplifying cosmic energy. Alanda '18 is offered in two sizes – 120 x 120 cm and 120 x 180 cm – with structure in glossy black painted steel and top in extralight or smoky glass.

Il tavolino Alanda '18, pezzo icona che ha inaugurato gli anni Ottanta, viene rieditato in omaggio a Paolo Piva, grande architetto e designer scomparso recentemente. Classico di grande successo e complemento d'arredo vintage tra più popolari del mercato, Alanda '18 è un oggetto di design tra i più rappresentativi di un'epoca ricca di segni stilistici forti e audaci, molto spesso in dialogo con l'architettura, di cui il design replicava in miniatura i virtuosismi. E il reticolato di Alanda '18, allo stesso tempo piedistallo e supporto del piano, ricorda per l'appunto un gruppo di piramidi rovesciate, una struttura geodetica che lo ha sempre caratterizzato quasi fosse un oggetto magico, catalizzatore di energia positive. Alanda '18 è proposto con struttura in tondino d'acciaio verniciato nero lucido e piano in cristallo extralight o fumé. Due dimensioni: cm 120 x 120 e cm 120 x 180.

Harbor sofa reflects
the architectural,
ergonomic shape of
the conversation
armchair, compounding
its welcoming appeal
by hosting two people.

Il divano Harbor riprende la forma scultorea ed ergonomica
della poltrona da conversazione raddoppiandone l'accoglienza
per arrivare ad ospitare due persone.

The Harbor series of armchairs and ottoman, presented with success in 2017, is enhanced by equally contemporary and sinuous sofa. A range extention in the sign of design continuity, a result of Naoto Fukasawa’s research into seating in the shape of upside-down truncated cone. The sofa reflects in particular the architectural, ergonomic shape of the conversation armchair, compounding its welcoming appeal by hosting two people. In fabric or leather, it has a visible metal zip on, the backrest that acts as a decorative element and also allows the cover to be removed.

Colosseo fits smoothly into the highly successful product category of furnishing elements that change function according to occasion and need, and for Colosseo this means transforming from coffee table to ottoman. When designing this new product, Naoto Fukasawa arrived at the shape he was searching for by considering a solid in the form of an upside-down truncated cone, lightened by arch-shaped grooves that define the surface, creating an assonance with the structure of the famous Roman arena it is named after. Made of hard polyurethane painted in sixteen glossy colours, Colosseo is available in two sizes: 40 cm diameter x 45 cm height and 45 cm diameter x 49 cm height.

La serie di poltrone e pouf Harbor, presentata con successo nel 2017, si arricchisce di un nuovo divano altrettanto contemporaneo e sinuoso. Un ampliamento di gamma all’insegna della continuità progettuale, frutto della ricerca di Naoto Fukasawa sulle sedute a forma di tronco di cono rovesciato. Il divano riprende in particolare la forma scultorea ed ergonomica della poltrona da conversazione raddoppiandone l’accoglienza per arrivare ad ospitare due persone. Proposto in tessuto o pelle, è dotato di una cerniera metallica a vista nella parte posteriore dello schienale che, oltre ad essere un dettaglio decorativo, permette la sfoderabilità del rivestimento.

Colosseo si inserisce in una categoria di prodotti di grande successo: gli accessori di servizio. Elementi di arredo che cambiano la funzione a seconda delle occasioni e delle necessità passando, nel caso di Colosseo, da tavolino a pouf. Nel progettare questo nuovo oggetto, naoto Fukasawa è arrivato alla forma desiderata pensando ad un solido a forma di tronco di cono rovesciato alleggerito da incavi a forma di arco che ne disegnano la superficie, creando così un’assonanza con la struttura della famosa arena romana, da cui prende il nome. Realizzato in poliuretano rigido verniciato in sedici colori lucidi, Colosseo è disponibile in due dimensioni: diametro cm 40 x altezza 45 e diametro cm 45 x altezza 49.

All four legs
are slightly curved
outwards at
the bottom to give
a classic feel.
The chair is named
“Belle” after the story
of “The Beauty and
the Beast”.

Nella parte inferiore, tutte e quattro le gambe sono leggermente incurvate verso l'esterno per dare un tocco classico. La sedia si chiama “Belle” in riferimento alla storia de “La Bella e la Bestia”.

With a clever play of literary and stylistic references, the Belle chair is the delicate, feminine counterpart to the Bull table. With rounded lines and padded seat with leather upholstery, it reinterprets the detail of the rounded section of the table legs, and as it develops downwards adds a small element of curvature that creates a graceful touch. Towards the top, the legs join the chair back with elegant, elbow-shaped arms. Two solutions are offered for the backrest, oak wood in the same finishes as available for the frame: light, grey, black and smoked or leather upholstery matching the seat, obtained through a special manufacturing technology.

In un gioco di rimandi letterali e formali, la sedia Belle è il contraltare delicato e femminile del tavolo Bull. Dalle linee arrotondate e con il sedile imbottito rivestito in pelle, riprende il particolare della sezione tonda delle gambe del tavolo e, nello sviluppo verso il basso, inserisce una piccola curvatura che dona un tocco aggraziato. Verso l'alto le gambe si innestano nello schienale con braccioli dalla ricercata forma a “gomito”. Due le soluzioni per lo schienale, legno di rovere nelle stesse varianti previste per la struttura: chiaro, grigio, nero e fumigato oppure rivestimento in pelle, in abbinamento alla seduta, ottenuto grazie ad una particolare tecnologia produttiva.

As its name expresses,
Bull is a table with
four toned legs that
stand firm on the
ground. I designed this
very firm looking table
together with an
elegant chair as a pair.

Come suggerisce il suo nome, Bull è un tavolo con quattro gambe che poggiano saldamente a terra; l'intento era progettare un tavolo dall'aspetto molto solido al quale accoppiare una sedia elegante.

The mechanism allows the doors to fold sideways at 180° without intrusive rails, reducing the overall dimensions and giving complete access to the compartment.

Il meccanismo permette alle ante di ripiegarsi lateralmente a 180° senza invadenti binari, riducendone l'ingombro e dando completa accessibilità al vano.

Backstage by Antonio Citterio is the most innovative solution to traditional wardrobes. Its elegant and sophisticated image is a direct result of the fine materials and exclusive finishing details used to build it – such as the new “oak” finish for the interior – in addition to the discreet, refined slatted doors and boiserie panel effect of the surfaces, which allow them to become invisible in small spaces. This solution is perfect for defining different spaces, not only bedrooms. Another feature is the innovative “rototranslating” door opening mechanism, which simultaneously rotates and moves the doors. This mechanism is used (exclusively for B&B Italia) with a new “folding” opening solution that employs a special pantograph mechanism applied to the upper part of the pair of doors. This system allows the doors to fold laterally at 90°/180° without invasive tracks, thus reducing the space occupied and making the compartment completely accessible.

Backstage di Antonio Citterio è la risposta più innovativa ed internazionale al sistema di contenimento degli armadi/ guardaroba tradizionali. La sua immagine è elegante e sofisticata grazie all’utilizzo di materiali pregiati, all’esclusività dei dettagli delle finiture – come il nuovo “rovere” per l’interno, alle discrete e raffinate ante a doghe e all’effetto boiserie delle superfici che permettono di annullare la loro presenza in ambienti di dimensioni contenute. Questa soluzione si rivela ideale anche per definire spazi diversi, non soltanto quelli destinati alla zona notte. Alla modalità di apertura delle ante con innovativo meccanismo definito “rototraslante” (movimento simultaneo di rotazione e traslazione delle ante stesse), si affianca, in esclusiva per B&B Italia, la nuova soluzione di apertura “a pacchetto”, che utilizza uno speciale meccanismo a pantografo applicato alla parte superiore della coppia di ante. Questo sistema permette alle ante di ripiegarsi lateralmente a 90°/180° senza invadenti binari, riducendone l’ingombro e dando completa accessibilità al vano.

The innovative chest of drawers with the smoky glass compartment, positioned in the centre of the room, are ideal for furnishing the walk-in closet. An innovative solution allows a fragrance to be used, and the air in the closet area is constantly purified with an ionisation and ozonisation process. To make Backstage even more special, we have designed an exclusive collection of accessories and outfitting, able to underscore the expert craftsmanship combined with its quality and fine materials, the new “ writing desk /make up” compartment with its round backlit mirror.

L'inedita cassettera a centro stanza con teca superiore in vetro fumé è un'elemento ideale per l'arredo delle cabine armadio. Infine, una soluzione innovativa consente, oltre alla profumazione, la costante la purificazione dell'ambiente cabina/ armadio grazie ad un processo di ionizzazione e ozonizzazione. Ad impreziosire Backstage, un corredo esclusivo di accessori ed attrezzature in grado di sottolineare la sapienza artigianale coniugata con la qualità e la preziosità dei materiali, il nuovo vano “scrittoio/make up” dotato di uno specchio circolare retroilluminato.

A flexible open system with new types of suspended storage units with drawers in the 39 cm module. Introducing fine materials such as thin marble for the shelves, the system allows the highest degree of freedom in creating compositions for every need.

Programma aperto e flessibile che all'interno del modulo da cm 39 aggiunge nuove tipologie di contenitori sospesi a cassetto e introduce materiali pregiati come il marmo sottile per le mensole, un sistema che consente la massima libertà nel creare composizioni ideali per ogni esigenza.

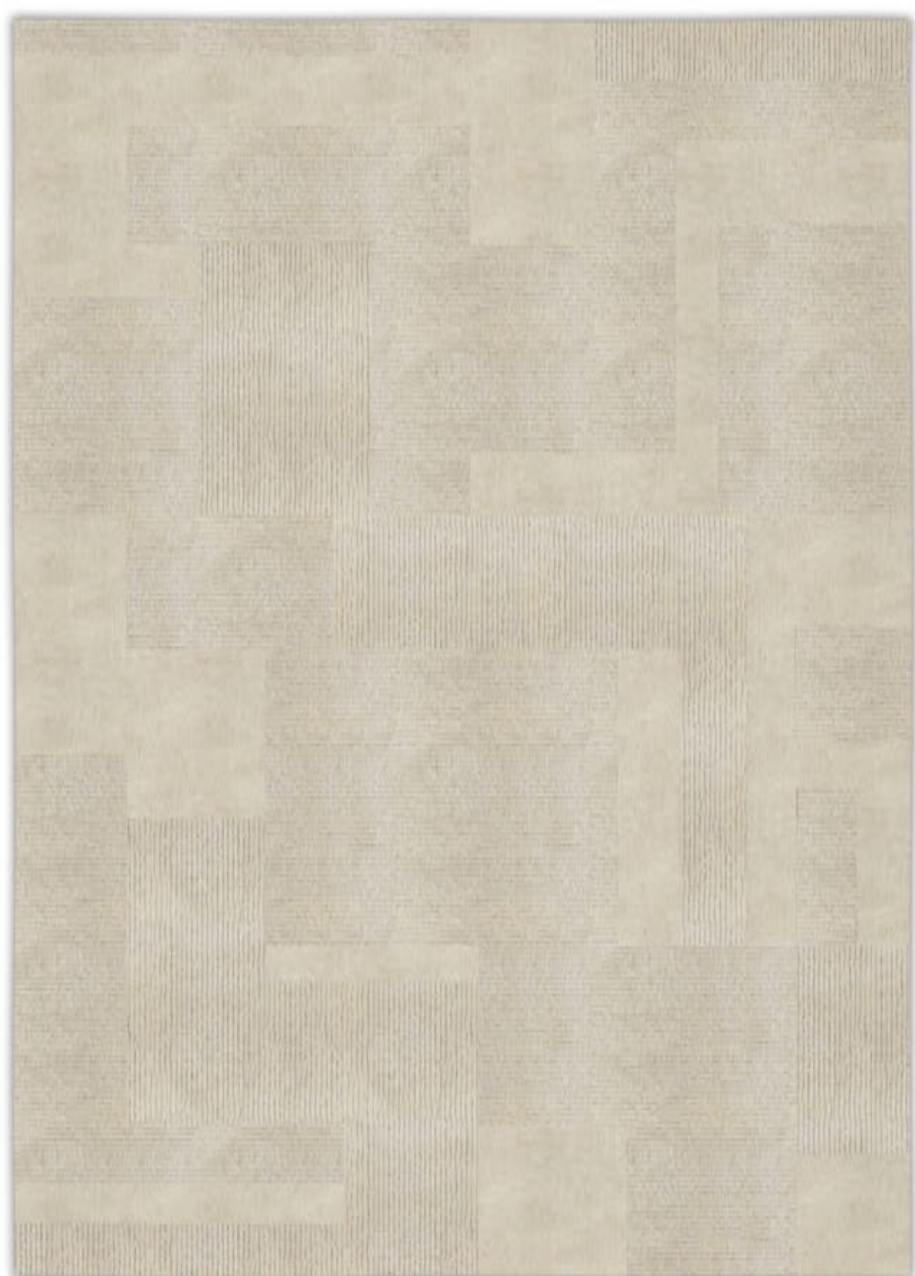

Raw, natural, warm.
Timo draws inspiration
from earthy scenery,
uneven yet flawless,
resuming the neutral
tones of nature itself.

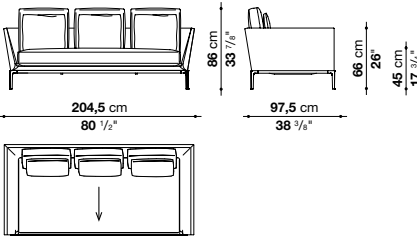

Crudo, naturale, caldo. Timo si ispira alla terra,
irregolare nella sua perfezione, riprendendo i toni neutri
della natura stessa.
